OF Science

SEMINARS AND SYMPOSIUMS 2005

Thursday 20.1. at 12.15

Dr. F. Susan Wong, Department of Pathology and Microbiology, School of Medical Sciences, University of Bristol: "*Knockout and transgenic animal models of autoimmune diseases*"

Host: Arno Hänninen (333 7008, arno.hanninen@utu.fi)

at 14.00

Dr. Richard Farndale, Department of Biochemistry, University of Cambridge: "*Affinity regulation and the recognition of collagen by the collagen-binding integrins*"

Host: Jyrki Heino (333 6879, jyrki.heino@utu.fi)

Thursday 17.2. at 12.15

Prof. J. Marie Hardwick, Johns Hopkins University Schools of Medicine: "*Viral modulators of cell death provide new links to old pathways*"

Host: John Eriksson (333 8036, john.eriksson@utu.fi)

Thursday 3.3. at 12.15

Dr. Marikki Laiho, Haartman Institute, Biomedicum University of Helsinki: "*p53 and nucleolar stress response*"

Host: Jukka Westermarck (333 8642, jukwes@utu.fi)

Wednesday 23.3. at 12.15

Dr. Henning Walczak, German Cancer Research Center: "*The regulation and functions of the death-inducing signaling complex*"

Host: John Eriksson (333 8036, john.eriksson@utu.fi)

Thursday 7.4. at 12.15

Prof. Mark Boothby, Vanderbilt Diabetes Center, Department of Microbiology and Immunology, Vanderbilt University Medical School: "*Regulating fate(ful) decisions in the life of a CD4 T cell*"

Host: Riitta Lahesmaa (333 8601, riitta.lahesmaa@btk.fi)

Thursday 21.4. at 12.15

Prof. Dian Donnai, Academic Unit of Medical Genetics and Regional Genetic Service, St Mary's Hospital: "*Dysmorphology and development: from patient to pathway*"

Host: Helena Kääriäinen (333 7453, hkaaria@utu.fi)

Thursday 28.4. at 12.15

Prof. Timo Hyypiä, University of Turku: "*How do viruses get into the cells?*"

Host: Jyrki Heino (333 6879, jyrki.heino@utu.fi)

Thursday 12.5. at 12.15

Prof. Jeremy Saklatvala, Kennedy Institute of Rheumatology, Imperial College: "*The p38 MAPK pathway as therapeutic target in inflammatory diseases*"

Host: Veli-Matti Kähäri (333 7349, veli-matti.kahari@utu.fi)

May 19-20

The 1st Annual Finnish Immunology Meeting in cooperation with BioCity Turku

Thursday 26.5. at 12.15

Mikro auditorium

Dr. Terumi Kohwi-Shigematsu, Lawrence Berkeley Laboratory, University of California:

"*MeCP2 mutations alter imprinted gene expression in Rett Syndrome*"

Host: Riitta Lahesmaa (333 8601, riitta.lahesmaa@btk.fi)

Thursday 2.6. at 12.15

Prof. Craig Primmer, University of Turku: "*Ecological genomics: prospects and challenges*"

Host: Jyrki Heino (333 6879, jyrki.heino@utu.fi)

June 9-10

Move, move, move! - TuBS Symposium on signaling in cancer and inflammation

BACKGROUND MOLECULE IMAGES BY
Mikko Huhtala

FRONTIERS OF SCIENCE SEMINARS ORGANISED BY
Center for Reproductive and Developmental Medicine
Receptor Structure and Function Program
Systems Biology Research Program
Turku Immunology Centre

TURKU BIONET SEMINAR CALENDAR:
