SEMINAR

Mass Cytometry Kick-Off

This seminar will give you an introduction to mass cytometry, including a tech overview, applications, workflow and reagents, and the Hyperion Imaging System. Additionally, you will get a data presentation description of the technology service in Turku.

Two excellent speakers will join us:

- ▶ **Discovery and Functional Profiling with Mass Cytometry**
High order multiplexing of biological samples – from suspension to tissue
Speaker: Andrius Serva, PhD, Field Application Specialist, Europe, Fluidigm
- ▶ **Helios Mass Cytometry in Turku**
Speaker: Zhi Chen, PhD, Turku Centre for Biotechnology

When: Thursday, 22 March, 2018 from 10:00-11:30
Where: Turku Centre for Biotechnology,
 BioCity 5th floor seminar room, B-Staircase
Price: Participation is free of charge - no sign-up required
 Refreshments will be served
