

Save the date for Lifespan symposium on 6th September 2018

How to succeed in international grant calls?

High end speakers and panel discussion moderators will enlighten the audience to the secrets on how to prepare successful grant applications to international grant calls.

Please join the seminar to grasp tacit knowledge from those who already have succeeded, to learn more about the application opportunities and processes, and to network and discuss with other researchers. This symposium may be useful for you regardless if you are thinking of applying for international or national grants.

Programme (Pha 1):
