Instructions for the Symposium poster abstract

Students and researchers are encouraged to present their life science and molecular medicine related research results at the poster sessions.

When preparing the abstract

- Save the abstract in **PDF-format** using your **surname as the file name**
- Use Times New Roman in the body text, single spacing, 12 points font, normal margins
- The presenting author should be underlined
- The best abstracts will be presented orally in the Symposium. The authors of the chosen abstracts will be informed during June/July
- A maximum of 100 abstracts are accepted according to the receiving order
- Page limit is **one A4**. Abstracts exceeding the limit are not accepted
- Abstracts can be sent only via the Symposium registration form. Abstracts sent via email are not accepted

Poster

- The poster size is width 84 cm and height 116 cm
- The presenting author should be underlined

Poster session

- Poster sessions are divided into session A and session B. Posters with odd number belong to group A and posters with even number belong to group B
- The presenting author should be available for discussions during the session where the poster belongs to
- Authors are informed beginning of August on which session their poster belongs
- Three best posters are awarded in the evening party
