The seminar series is organized and coordinated by Juho-Antti Mäkelä (jasmak@utu.fi) and Noora Kotaja (nookot@utu.fi). We would like to encourage everybody to contact us if you or your supervisees want to give a presentation to share a great scientific story with the rest of us. Feedback is also always welcome. Attending these seminars is a great opportunity to get to better know the people around you and what they are doing. Be so kind as to prioritize these seminars in your weekly schedules.

The Chair of each seminar is responsible for setting up the seminar, introducing the speakers and chairing the session.
