

Joint Annual Meeting of

Cell Tissue Dynamics (CTD) Program & Finnish Society for Developmental and Stem Cell Biology (FSDSCB)

30th – 31st of October 2025

📍 Hyytiälä Forest Station

The event will gather together scientists working with cell tissue dynamics, developmental biology and stem cells around Finland. All from students to principal investigators interested in these topics are welcome!

Keynote Speaker

Prof. Fredrik Lanner

Karolinska Institutet, Karolinska University Hospital, Stockholm

Embryonic stem cells to model human development and manufacturing of cell therapy products

- The meeting will start with lunch on Thursday.
- Each research group has the opportunity to present a talk by a Postdoc or a PhD student.
- All students have the opportunity to shine by presenting flash talks. No need for posters!
- Dinner, sauna, and an evening party will be arranged on the 30th!
- The event ends on Friday afternoon.

Deadline for the registration:
30th of September 2025
