

# Prospects of Infections and Immunity

Spring 2023

31.1.- 8.5.2024

Wednesdays at 11:15 – 12:00 a.m.

Organized live at Medisiina D (Lauren 2, 1st floor) and via Zoom: <https://utu.zoom.us/j/69915597198>

**31.1.** @11.15-12, Lauren 2

Minka Ovaska (Lagström), The role of living environment in the development of gut microbiota in infancy

**14.2.** @11.15-12, Lauren 2

Varpu Rinne (Hytönen), "Immune response landscape of *Borrelia burgdorferi* infection revealed by single cell RNA-sequencing"

Venla Huovinen (Karlsson), TBA

**28.2.** @11.15-12, Lauren 2

Anni Soikkeli (Alinikula): "Somatic hypermutation targeting activity of viral enhancers".

Jussi Palomäki (Hukkanen), TBA

**13.3.** @11.15-12, Lauren 2

Aino Vilén (KGYH), TBA

Iiris Airaksinen (KGYH), TBA

**27.3.** @11.15-12, Lauren 2

Sujit Kumar (Pulliainen), TBA

Sayma Farabi (Tauriainen), TBA

**10.4** @11.15-12, Lauren 2

Johanna Teräsjärvi (He), TBA

Maija Lamppu (Hytönen), TBA

**24.4** @11.15-12, Lauren 2

Tanja Orpana (Hakanen), TBA

Jaakko Silvola (Vuopio), "Evaluation of Fourier transform infrared spectroscopy for the rapid identification of *Staphylococcus aureus* isolates"

**8.5** @11.15-12, Lauren 2

Young scientists

TBA
