

Seminar Series of Infections and Immunity

Autumn 2025

17.9. - 10.12.2025
Wednesdays at 13:15-14

Organized live at Medisiina D and via Zoom:
<https://utu.zoom.us/j/61507745698>

17.9. @13:15-14, Blokki 3

Abhijit Paul (University of Turku), Genome-scale metabolic modeling to understand host-microbe relationships

1.10. @13:15-14, Lauren 1

Sauli Haataja (University of Turku), The role of carbohydrates in streptococcal host interactions

15.10. @13:15-14, Zoom meeting

Mika Rämetsä (Tampere University), An mRNA-vaccine against tuberculosis

29.10. @13:15-14, Blokki 1

Pekka Kolehmainen (University of Turku), H5N8 vaccine-induced immune responses against Avian Influenza Clade 2.3.4.4b Viruses

12.11. @13:15-14, Reseptori

Laura Kakkola (University of Turku), Hide, Seek, and Sneak: Viruses vs. Innate Immunity

26.11. @13:15-14, Mitoosi

Eliisa Kekäläinen (University of Helsinki), Tracking spike-specific T-cell responses in B-cell-depleted patients after SARS-CoV-2 mRNA vaccination

10.12. @13:15-14, Lauren 2

Dr. Valeria Iannone (University of Eastern Finland), Modulating gut barrier functions through diet: implications for host health
